Representation of Functions as Power Series.

Representation of Functions as Power Series Our starting point in this section is the geometric series: $X_1 n=0 x_n = 1 + x + x^2 + x^3 + \dots$ We know this

series converges if and only if $|x| < 1$ So this is a power series in x , centred at $x = 0$, it has radius of convergence $R = 1$, and its interval of convergence is the open interval (...
